

1.3.9. Age distribution, by sex, education authority and language of instruction – 2018, 2019, 2020

A minor level setback is observed from 2018 to 2020 in the age profile of children enrolled in secondary education with respect to the rate of education at the right age by language of instruction as English for both genders and French for only females. An improvement is recorded for males in French teaching schools (see chart – 13.9.a).

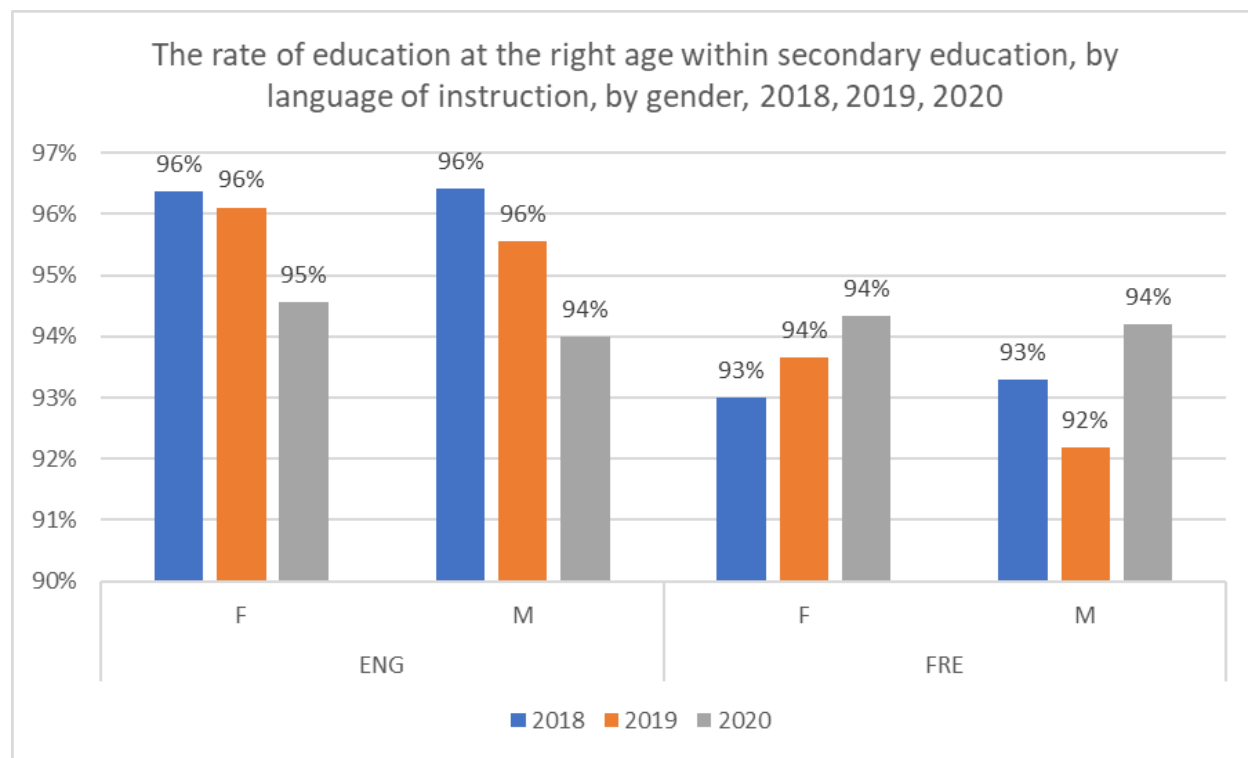

Chart 1.3.9 a

Country level trends observed in the age profile at English taught schools are valid for all province for both genders with differing sizes of changes in the rates. However, the overall trend of French taught schools differs across provinces and genders with respect to the direction of the trend and the size of changes in the rates (see chart – 13.9.b).

The rate of education at the right age within secondary education, by language of instruction, by province, by gender, 2018, 2019, 2020
