

1.2.23. Completion rate for Primary education, by sex

Completion rate for primary education is calculated based on the size of the cohort in 2017, who were enrolled in at least 3 or higher class that they would be expected to be enrolled in 6th grade in 2020 and 7th in 2021 (see table - x).

Completion rate for primary education - size of student population of interest

	Females	Males	Overall
Total # of students enrolled in 2017 and started studying 7th grade between 2018 and 2021	7656	7779	15435
Total # of students who were at least on 3rd grade in 2017	13531	15246	28777
Completion rate - out of reduced unique enrollment in 2017	57%	51%	54%

Out of 28,777 students, 15,435 enrolled in 7th grade throughout the period from 2018 to 2021, thus completing primary education. Completion rates are calculated as 57% for females, 51% for males and overall, 54%.
