

1.7.3 Share of ECCE schools receiving grant, by province and attachment (Yes-attached, Not-attached) - 2018, 2019, 2020.

In 2020, It was observed 49% (291) of the ECCE schools were attached were attached out of the 588 schools receiving grants. In terms of the overall schools registered, the attached schools received grants represented 49% out of the 676 schools registered in 2020 based on the report of attachment in 2020. The highest number of attached schools receiving grants was observed in Shefa representing 51% of the registered schools in 2020 and the least in Sanma for 34%.

The attachment information was seen in two different resources and tables we created representing the two sources.

First source from the ECCE folder in which information of attachment was observed including different categories. I have recategorized them as attached and other types. The other types included the following; feeder, blank, parent decide, attached private, zero value). The share was calculated by the following; A. based on schools received grants B. Based on the total number of schools. The share based on the total number of schools showed error in data quality and the analyses in the ECCE folder didn't correspond to the schools' lists.

Second source, based on the report of attachment but it represents only 2020 schools and it didn't include all school's information.

A. Share Calculation based on schools received grants

	2018		2019		2020	
Province	No. of Schools	Grant Paid without overpayment	No. of Schools	Grant Paid without overpayment	No. of Schools	Grant Paid without overpayment
Malampa						
Attached	9,18%	8,91%	8,08%	8,44%	8,67%	8,31%
Other Types	12,93%	8,62%	9,96%	7,87%	10,54%	7,63%
Penama						
Attached	6,63%	7,10%	7,22%	5,65%	7,99%	7,67%
Other Types	7,82%	5,86%	7,79%	4,81%	7,31%	4,60%
Sanma						
Attached	9,18%	11,03%	10,10%	11,87%	8,84%	9,89%
