26th of February 2016

To: All Provincial PEOs

Dear PEOs,

Subject: Purchasing Education Software

The ministry has invested heavily in a national Education Information Management System called Open VEMIS which is planned to roll out the existing VEMIS. The ministry will commence trials of this system at schools in coming weeks. Open VEMIS will allow schools to manage enrolment, attendance, finance and staff using information from VNPF, Ministry of Finance and MoET.

The system will integrate with the national examination process and return examination results directly to schools.

Schools accessing Open VEMIS are not required to submit the VEMIS survey form rather to enter information online via Open VEMIS webpage.

Schools that purchase education management software are still required to provide the VEMIS paper forms to the ministry.

The ministry will provide training in the use of Open VEMIS free of charge. Open VEMIS has no cost to schools.

Schools are therefore requested at this time to refrain from purchasing education management software.

If you have questions in regards to Open VEMIS please contact IT or VEMIS unit for clarification.

Yours Sincerely,

Jesse Dick Joe
Director General

Ministry of Education and Training
